Report form / Operation report

(Informant: Student with Consultant)

The report is part of the cooperative education / internship practice and provides useful information for the workplace. Students will need to request advice from job supervisor. In order to specify the outline / report topic that is suitable for the nature of work performed with regard to the needs of the workplace as the primary

In the case that the establishment does not need the layout / report in the above topics students must consider the matter they are interested in when making a report. By consulting with the advisor first Examples of topics for writing a report include academic reports that students are interested in. Assignment report or plans and methods of work that will achieve the learning objectives that students set goals from this time of operation and once the topics have been determined Have students create a brief outline of the report content. As per this form in this regard, consult with the advisor staff and return to the advisor within the first 2 weeks of the operation.
